Honorable President and
Members of the Board of Education
Somerset Hills School District
25 Olcott Avenue
Bernardsville, New Jersey 07924

Dear Board Members:

The comprehensive annual financial report of the Somerset Hills Board of Education for the fiscal year ended June 30, 2011 is hereby submitted. Responsibility for both the accuracy of the data and completeness and fairness of the presentation, including all disclosures, rests with the management of the Somerset Hills Board of Education. To the best of our knowledge and belief, the data presented in this report is accurate in all material respects and is reported in a manner designed to present fairly the financial position and results of operations of the various funds of the District. All disclosures necessary to enable the reader to gain an understanding of the District's financial activities have been included.

The comprehensive annual financial report is presented in four sections: introductory, financial, statistical, and single audit. The introductory section includes this transmittal letter, the District's organizational chart and a list of principal officials. The financial section includes the management discussion and analysis, the basic financial statements and schedules, as well as the auditor's report thereon. The statistical section includes selected financial and demographic information, generally presented on a multi-year basis. The district is required to undergo an annual single audit in conformity with the provisions of the Single Audit Act Amendments of 1996 and the U.S. Office of Management and Budget Circular A-133, "Audits of States, Local Governments and Non-Profit Organizations", and New Jersey OMB's Circular 04-04, "Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid". Information related to this single audit, including the auditor's report on the internal control structure and compliance with applicable laws and regulations and findings and recommendations, is included in the single audit section of this report.

1. REPORTING ENTITY AND ITS SERVICES:

The Somerset Hills School District is an independent reporting entity within the criteria adopted by the Governmental Accounting Standards Board (GASB) as established by Statement No. 14. All funds of the District are included in this report. The Somerset Hills Board of Education and all its schools constitute the District's reporting entity.

The District provides a full range of educational services appropriate to grade levels Pre-K through 12. These include programs for regular, vocational and special education for handicapped students. The District completed the 2010-2011 fiscal year with an enrollment of 2059 students, which is 19 students less than the previous year's enrollment. The following table details the changes in student enrollment over the last ten years:

<u>Fiscal Years</u>	<u>Student Enrollment</u>	<u>Percent Change</u>
2010-2011	2,059	-.9%
2009-2010	2,078	-2.3%
2008-2009	2,128	2.5%
2007-2008	2,076	2.8%
2006-2007	2,020	.1%
2005-2006	2,002	3.4%
2004-2005	1,936	2.6%
2003-2004	1,887	6.6%
2002-2003	1,771	4.6%
2001-2002	1,694	4.5%

2. ECONOMIC CONDITION AND OUTLOOK:

The Boroughs of Bernardsville, Far Hills and Peapack-Gladstone, the municipalities that comprise the Somerset Hills School District, are experiencing minimal residential development which has contributed to a student enrollment decrease.

3. MAJOR INITIATIVES:

The District is in the process of implementing two energy-savings initiatives. Schools for Energy Efficiency[®] (SEE) is a comprehensive program for K-12 schools to save energy and money by changing behavior throughout the district. SEE provides a systemized plan, educational awareness materials, training, and utility tracking for immediate and sustainable savings. To date, the district has avoided energy costs of \$112,778.

The District has also undertaken a comprehensive energy audit that was funded by a grant of \$67,485 from New Jersey's Clean Energy Program. Following the audit, the District engaged in an Energy Savings Improvement Plan (ESIP) with a national energy services company. Under this program, the District has installed \$3.2 million worth of energy improvements at no cost to the taxpayer and a guaranteed cash flow to the district of \$31,946 per year for 15 years. The improvements are funded by grant funding and energy savings.

A tradition of academic excellence was continued in all areas of the curriculum. Student performance on the HSPA and NJASK exceeded state averages and in most cases exceeded comparative DFG averages. We maintain alignment with the new Common Core

Standards and updated NJ Core Curriculum Standards. Curriculum articulation and the implementation of new courses occurred in a variety of areas including Science, Math, Social Studies, and Language Arts.

Bernards High School seniors scored far above the New Jersey and National Scholastic-Aptitude Test (SAT) scores in 2010-2011.

SAT Test	Bernards High School	New Jersey	National
Verbal/Reading	566	495	501
Verbal/Writing	579	497	492
Math	577	514	516

In 2011, one student had the distinction of being selected a U.S. Presidential Scholar. One student was selected as the winner of a National Merit Scholarship. One student was named a National Merit Finalist, one student was named a National Merit Semi-Finalist, and sixteen students were named as National Merit Commended students. Fifty-two seniors qualified for the President's Award for Educational Excellence. Twenty-eight seniors and recent graduates were named AP Scholars. Thirty-five students qualified for the AP Scholar with Distinction Award, fourteen qualified for the AP Scholar with Honor Award and three qualified for AP National Scholar.

Bernards High continues to be included among New Jersey's best schools by *New Jersey Monthly* magazine. Bernards High also continues to be recognized as a national leader in Service Learning and Bedwell Elementary School was selected as a 2010 New Jersey School of Character by the Center for Social and Character Development at Rutgers University. It continues to be a model for character education having received four promising practice awards. A special feature of the program was the introduction of the "Friends of Ed", a peer group program designed to provide guidance and modeling to promote responsible, respectful and cooperative students at Bedwell.

Student learning experiences have been enriched by staff challenge grants provided by the Somerset Hills Education Foundation. During the 2010-2011 school year, the foundation awarded over \$22,600 in various grants. In addition, a check was presented to the district for \$68,000 to support virtual learning, a college and career counseling center, and a partnership with Teachers College Writers Project. SHEF has provided \$750,000 in total grants.

4. INTERNAL ACCOUNTING CONTROLS:

Management of the District is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the District are protected from loss, theft or misuse and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principals (GAAP). Internal control is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the valuation of costs and benefits requires estimates and judgments by management.

As a recipient of federal and state financial assistance, the District also is responsible for ensuring that an adequate internal control structure is in place to ensure compliance with applicable laws and regulations related to those programs. This internal control structure is also subject to periodic evaluation by the District management.

As part of the District's single audit described earlier, tests are made to determine the adequacy of internal control, including that portion related to federal awards and state financial assistance programs, as well as to determine that the District has complied with applicable laws and regulations.

5. BUDGETARY CONTROLS:

In addition to internal accounting controls, the District maintains budgetary controls. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the voters of the municipalities. Annual appropriated budgets are adopted for the general fund, the special revenue fund, and the debt service fund. Project-length budgets are approved for the capital improvements accounted for in the capital projects fund. The final budget amount as amended for the fiscal year is reflected in the financial section.

An encumbrance accounting system is used to record outstanding purchase commitments on a line item basis. Open encumbrances at year-end are either canceled or are included as re-appropriation of fund balance in the subsequent year. Those amounts to be re-appropriated are reported as reservations of fund balance at June 30, 2011.

6. ACCOUNTING SYSTEM AND REPORTS:

The District's accounting records reflect generally accepted accounting principles as promulgated by the Governmental Accounting Standards Board (GASB). The accounting system of the District is organized on the basis of funds and account groups. These funds and account groups are explained in "Notes to the Financial Statements", Note 1.

7. CASH MANAGEMENT:

The investment policy of the District is guided in large part by state statute as detailed in "Notes to the Financial Statements", Note 2. The District has adopted a cash management plan that requires it to deposit public funds in public depositories protected from loss under the provisions of the Governmental Unit Deposit Protection Act ("GUDPA"). GUDPA was enacted in 1970 to protect Governmental Units from a loss of funds on deposit with a failed banking institution in New Jersey. The law requires governmental units to deposit public funds in public depositories located in New Jersey, where the funds are secured in accordance with the Act.

8. RISK MANAGEMENT:

The Board carries various forms of insurance that includes, but not limited to, general liability, automobile liability and comprehensive/collision, hazard and theft insurance on property and contents, and fidelity bonds.

9. OTHER INFORMATION:

A. Independent Audit - State statutes require an annual audit by independent certified public accountants or registered municipal accountants. The accounting firm of Suplee, Clooney & Company was selected as the Board's audit firm. In addition to meeting the requirements set forth in state statutes, the audit also was designed to meet the requirements of the Single Audit Act Amendments of 1996 and the related OMB Circular A-133 and New Jersey OMB's Circular Letter 04-04. The auditor's report on the basic financial statements and combining and individual fund statements and schedules is included in the financial section of this report. The auditor's reports related specifically to the single audit are included in the single audit section of this report.

B. District Information:

The 2010-2011 school year was the fourteenth year of operation as the regionalized Somerset Hills School District and a year of continued growth and programmatic improvements. The school district took major steps forward to preserve and improve the quality of education in its schools.

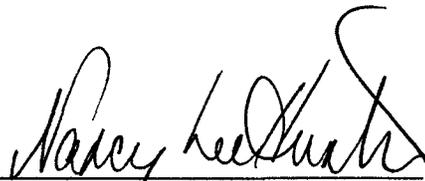

ACKNOWLEDGEMENTS:

We would like to express our appreciation to the members of the Somerset Hills Board of Education for their concern in providing fiscal accountability to the citizens and taxpayers of the school district and thereby contributing their full support to the development and maintenance of our financial operation. The preparation of this report could not have been accomplished without the significant assistance of our Business Office staff.

Respectfully submitted by,

Peter J. Miller

INDEPENDENT AUDITOR'S REPORT

Honorable President and Members
of the Board of Education
Somerset Hills School District
County of Somerset
Bernardsville, New Jersey 07924

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Somerset Hills School District, County of Somerset, New Jersey as of and for the year ended June 30, 2011, which collectively comprise the District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the District's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, audit requirements prescribed by the Division of Finance, Department of Education, State of New Jersey and the provisions of U. S. Office of Management and Budget (OMB) Circular A-133 "Audits of State, Local Governments and Non-Profit Organizations" and State of New Jersey OMB Circular 04-04, "Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid." Those standards and provisions require that we plan and perform the audit to obtain reasonable assurance about whether the basic financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the basic financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the basic financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the Somerset Hills School District, County of Somerset, New Jersey as of June 30, 2011, and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended in conformity with U.S. generally accepted accounting principles.

SUPLEE, CLOONEY & COMPANY

In accordance with Government Auditing Standards, we have also issued our report dated October 13, 2011 on our consideration of the Somerset Hills School District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, grants and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be considered in assessing the results of our audit.

The Management's Discussion and Analysis and the required supplementary information, as listed in the foregoing table of contents, respectively, are not a required part of the basic financial statements but are supplementary information required by the U.S. generally accepted accounting principles. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Somerset Hills School District's basic financial statements. The introductory section, combining and individual fund schedules and statements, other schedules, statistical tables and the schedules of expenditures of federal awards and state financial assistance as listed in the table of contents are presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, "Audits of States, Local Governments, and Non-Profit Organizations"; New Jersey OMB's Circular 04-04 "Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid" and State of New Jersey, Department of Education, Division of Finance and are not a required part of the basic financial statements of the Somerset Hills School District, County of Somerset, New Jersey. Such information, except for the introductory section and that portion marked unaudited on which we express no opinion, has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

**MANAGEMENT'S DISCUSSION AND ANALYSIS
(UNAUDITED)**

THE SOMERSET HILLS SCHOOL DISTRICT
BERNARDSVILLE, NEW JERSEY

MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE FISCAL YEAR ENDED JUNE 30, 2011
UNAUDITED

The discussion and analysis of The Somerset Hills School District's (SHSD) financial performance provides an overall review of the District's financial activities for the fiscal year ended June 30, 2011. The intent of this discussion and analysis is to look at the School District's financial performance as a whole. Readers should also review the basic financial statements and notes to enhance their understanding of the District's financial performance.

Financial Highlights

Key financial highlights for 2011 are as follows:

- Total net assets decreased \$205,255.40, which represents a 0.1 percent decrease from 2010.
- General revenues accounted for \$30,079,332.95 in revenue or 77 percent of all revenues. Program specific revenues in the form of charges for services, operating and capital grants and contributions accounted for \$8,976,969.84 or 23 percent of total revenues of \$39,056,302.79.
- The School District had \$39,261,558.19 in expenses; only \$8,976,969.8 of these expenses were offset by program specific charges for services, grants or contributions. General revenues (primarily local property tax levy) of \$30,079,332.95 were adequate to provide for these programs.
- Among governmental funds, the General Fund had \$33,971,320.04 in revenues, \$106,878.96 in capital lease proceeds, transfer in for \$129,545.23 and, \$34,952,811.63 in expenditures. The General Fund's fund balance decreased by \$745,067.40 after transfers compared to 2010.

Using this Comprehensive Annual Financial Report (CAFR)

This annual report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand SHSD as a financial whole and as an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities.

The *Statement of Net Assets and Statement of Activities* provide information about the activities of the whole School District, presenting both an aggregate view of the School District's finances and a longer-term view of those finances. Fund financial statements provide the next level of detail. For governmental funds, these statements reflect how services were financed in the short-term as well as what remains for future spending. The fund financial statements also look at the School District's most significant funds with all other non-major funds presented in total in one column. In the case of SHSD, the General Fund is by far the most significant fund.

Reporting the School District as a Whole

Statement of Net Assets and the Statement of Activities

While this document contains the large number of funds used by the School District to provide programs and activities, the view of the School District as a whole looks at all financial transactions and asks the question, "How did we do financially during 2011?" The Statement of Net Assets and the Statement of Activities answers this question. These statements include all assets and liabilities using the accrual basis of accounting similar to the accounting used by most private-sector businesses. This basis of accounting reflects all of the current year's revenues and expenses regardless of when cash is received or paid.

THE SOMERSET HILLS SCHOOL DISTRICT
BERNARDSVILLE, NEW JERSEY

MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE FISCAL YEAR ENDED JUNE 30, 2011
UNAUDITED (CONTINUED)

These two statements report the School District's net assets and changes in those assets. This change in net assets is important because it tells the reader that, for the School District as a whole, the financial position of the School District has improved or diminished. The causes of this change may be the result of many factors, some financial and some not. Non-financial factors include the School District's property tax base, current laws in New Jersey restricting revenue growth, facility condition, required educational programs and other factors.

In the Statement of Net Assets and the Statement of Activities, the School is divided into two distinct kinds of activities:

- Government activities – All of the School District's programs and services are reported here including instruction, support services, operation and maintenance of plant facilities, pupil transportation and extracurricular activities.
- Business-Type Activity – This service is provided on a charge for goods or services basis to recover all the expenses of the goods or services provided. The Food Service enterprise funds are reported as business activities.

Reporting the School District's Most Significant Funds

Fund Financial Statements

Fund Financial reports provide detailed information about the District's funds. The District uses many funds to account for a multitude of financial transactions. The District's governmental funds are the General Fund, Special Revenue Fund, Capital Projects Fund and Debt Service Fund.

Governmental Funds

The District's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end available for spending in future years. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the District's general government operations and the basic services it provides. Governmental fund information helps the reader determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs. The relationship (or differences) between governmental activities (reported in the Statement of Net Assets and the Statement of Activities) and governmental funds is reconciled in the financial statements.

Enterprise Fund

The enterprise fund uses the same basis of accounting as business-type activities; therefore these statements are essentially the same.

Governmental Activities

The nature of funding public education primarily through local property taxes in New Jersey creates the legal requirement to annually seek the approval of the registered voters from all three of the constituent municipalities for the School District operating budget. Local property taxes made up 77 percent of revenues for governmental activities for the SHSD for fiscal year 2011. The District's total governmental revenues were \$38,447,441.26 for the year ended June 30, 2011. Federal, state, local grants and aid accounted for another 11 percent of revenue. Program specific revenues in the form of

charges for services accounted for 11 percent of total revenue. Other miscellaneous revenues accounted for less than 1 percent of total revenue.

Business-Type Activities

Revenues for the District's business-type activities (food service program) were comprised of charges for services and federal and state reimbursements.

- Overall business-type revenues exceeded expenditures by \$5,792.52.
- Charges for services represent \$509,115.37 of revenue. This represents amounts paid by individuals for various program services.
- Federal and state reimbursement for meals, including payments for free and reduced lunches and donated commodities was \$97,124.86.

Governmental Activities

The Statement of Activities shows the cost of program services and the changes for services and grants offsetting those services. Table 3 shows the total cost of services and the net cost of services. The net cost shows the financial burden that was placed on the District's taxpayers by each of these functions.

Governmental Activities (continued)

Instruction expenses include activities directly dealing with the teaching of pupils and the interaction between teacher and student, including extracurricular activities.

Pupils and instructional staff include the activities involved with assisting staff with the content and process of teaching to students, including curriculum and staff development.

General administration, school administration, and business include expenses associated with administrative and financial supervision of the District.

Operation and maintenance of facilities include expenses associated with the upkeep of the physical plant, utilities, and property/liability insurance coverage.

Pupil transportation includes activities involved with the conveyance of students to and from school, as well as to and from school activities, as provided by State law.

Interest on debt involves the transactions associated with the payment of interest and other related charges to debt of the School District.

The School District's Funds

All governmental funds (i.e., general fund, special revenue fund, capital projects fund and debt service fund presented in the fund-based statements) are accounted for using the modified accrual basis of accounting. Total revenues amounted to \$38,554,320.25 and expenditures were \$40,125,090.75.

As demonstrated by the various statements and schedules included in the financial section of this report, the District continues to meet its responsibility for sound financial management. The following schedules present a summary of the revenues of the governmental funds for the fiscal year ended June 30, 2011, and the amount and percentage of increase and decrease in relation to prior year revenues.

General Fund Budgeting Highlights

The School District's budget is prepared according to New Jersey law and is based on accounting for certain transactions on the basis of cash receipts, disbursements, and encumbrances. The most significant budgeted fund is the General Fund.

The 2010-2011 general fund tax levy of \$26,539,186 was approved by a vote of 1079 to 969, with 26.7% of registered voters participating. The Somerset Hills School District was one of only two districts in Somerset County to pass the budget in April of 2010. District financial objectives to improve operational performance were met. Unfortunately, new State legislation has forced the district to operate with an unreserved fund balance equal to 2% of budgeted expenditures. This required the District to designate \$2,330,943 in fund balance for future tax levy reduction.

During the year the District appropriately transferred funds to prevent over expenditures in specific line items. Several of these transfers merit notation:

- Out-of-district special education tuition costs increased by \$117,000 from budget because of a greater number of students who required placement outside of the district.
- Purchased professional therapeutic services for our in-district special needs population students increased from budget by \$200,000 due to an increase in the number and cost of required services provided to students with special needs.
- Utility expenses decreased from budget by \$187,000 due to the energy savings initiatives the district has undertaken, most notably the Schools for Energy Efficiency or SEE program.
- General maintenance expenses decreased from budget by \$116,000 due to efficiencies undertaken by the maintenance department.

- Health benefit expense was less than budget by \$232,000 due to negotiated changes in the health benefits plan. However, these savings were almost entirely absorbed by an increase in the amount of pension contribution requirement by the Public Employee's Retirement System (PERS).
- The State's contribution to the TPAF pension fund is neither a revenue item nor an expenditure item to the District but is required to be reflected in the financial statements.

Capital Assets

At the end of the 2011 fiscal year, the School District had \$62,439,876 invested in land, building, machinery, and equipment. Table 4 shows fiscal year 2011 balances compared to 2010.

Overall capital assets decreased \$807,524 from fiscal year 2010 to fiscal year 2011.

Debt Administration

At June 30, 2011, the School District had \$39,596,302.45 of long-term liabilities. Of this amount, \$1,605,294.96 is for compensated absences, \$107,879.00 is for the PERS pension deferral, \$136,416.79 is for capital leases payable and \$37,746,711.70 is for serial bonds issued for school construction, net of unamortized refunding costs.

For the Future

The Somerset Hills School District will be challenged to continue to deliver its premier educational program with greatly reduced state aid and pressure from the community to keep any tax rate increases to 2% or less due to the state imposed cap and due to the recession. As such, the District has implemented several initiatives to reduce those expenses which would have no direct impact on the educational program.

Enrollment has declined for the second straight year – by 37 students in 2009-2010 and by 19 students in the 2010-2011 year. This decline also creates a downward pressure on expenses. Any enrollment increases are expected to be minimal over the next several years.

The District has also completed a comprehensive energy audit that was funded by a grant of \$67,485 from New Jersey's Clean Energy Program. Upon completion of the audit, the District entered into an Energy Savings Improvement Plan (ESIP) with Ameresco, a national energy savings company. Under this program the District will install \$3.2 million worth of energy improvements at no cost to the taxpayer and a guaranteed cash flow of \$31,946 per year for 15 years. The project is expected to be completed in the Fall of 2011.

The District embarked on a new cycle of strategic planning in October of 2007 under the direction of the Cambridge Group, a national leader in strategic planning. A group of 30 individuals representing board members, administration, teachers, parents and other community members met over a 3 day period to develop a mission statement and a series of strategies to accomplish that mission. After the planning group, a team of 120 community members formed the action teams to prepare specific implementation plans. The entire strategic plan, including specific actions to be taken, was approved by the Board of Education in June of 2008. Implementation is expected to take place over the next 5-10 years. By seeking alternative funding sources including grants and funding by the Somerset Hills Education Foundation (SHEF), the District has continued to implement its strategic plan goals in 2010/11 including virtual classrooms, new writing labs and several "green" initiatives.

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES
AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS
TO THE STATEMENT OF ACTIVITIES
FOR THE FISCAL YEAR ENDED JUNE 30, 2011

Total net change in fund balances - governmental funds (from B-2) \$ (1,570,770.50)

Amounts reported for governmental activities in the statement of activities (A-2) are different because:

Capital outlays are reported in governmental funds as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the period

Depreciation expense	(1,711,148.95)
Capital outlays	916,169.86

Repayment of long-term debt is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net assets and is not reported in the statement of activities.

Payment of bond principal	1,785,000.00
Payment of capital lease principal	71,406.45
Amortization of deferred amount of refunding bonds	(10,900.00)
Proceeds from Capital lease financing	(106,878.96)

In the statement of activities, interest on long-term debt is accrued, regardless of when due. In governmental funds, interest is reported when due. The accrued interest decrease is an addition in the reconciliation.

21,137.26

In the statement of activities, certain expenses, e.g., compensated absences (vacations) are measured by the amounts earned during the year. In governmental funds, however, expenditures for these items are reported in the amount of financial resources used (paid). When the earned amount exceeds the paid amount, the difference is a reduction in the reconciliation (-); when the paid amount exceeds the earned amount the difference is an addition to the reconciliation (+).

Somerset Hills School District
Notes to the Financial Statements
For the Fiscal Year Ending June 30, 2011

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Somerset Hills School District (the "District") have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the District's accounting policies are described below:

Reporting Entity

The School District is a Type II District located in Somerset County, New Jersey. The School District is an instrumentality of the State of New Jersey, established to function as an educational institution. The Somerset Hills School District is governed by a ten member board, including nine individuals elected to three year terms from the Boroughs of Bernardsville, Peapack & Gladstone and Far Hills, along with one appointed member from the Bedminster Board of Education. The Board is the primary governing authority of the District. A superintendent is appointed by the Board and is responsible for the administrative control of the District.

The primary criterion for including activities within the District's reporting entity, are set forth in Statement No. 39 of the Governmental Accounting Standards Board entitled "*Determining Whether Certain Organizations are Component Units*" (GASB 39) as codified in Section 2100 of the GASB Codification of Governmental Accounting and Financial Reporting Standards.

Organizations that are legally separate, tax-exempt entities and that meet *all* of the following criteria should be discretely presented as component units. These criteria are:

1. The economic resources received or held by the separate organization are entirely or almost entirely for the direct benefit of the primary government.
2. The primary government, or its component units, is entitled to, or has the ability to otherwise access, a majority of the economic resources of the organization.
3. The economic resources received or held by an *individual organization* that the specific primary government, or its component units, is entitled to, or has the ability to otherwise access, are significant to that primary government.

The operations of the District include one elementary school, one intermediate school and a High School. There were no additional entities required to be included in the reporting entity under the criteria as described above, in the current fiscal year. Furthermore, the District is not includable in any other reporting entity on the basis of such criteria.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Basis of Presentation, Basis of Accounting

The District's basic financial statements consist of District-wide statements, including a statement of net assets and a statement of activities, and fund financial statements which provide a more detailed level of financial information.

Basis of Presentation

District-wide Statements: The statement of net assets and the statement of activities display information about the District as a whole. These statements include the financial activities of the overall District, except for fiduciary activities. Eliminations have been made to minimize the double-counting of internal activities. These statements distinguish generally between the governmental and business-type activities of the District. Governmental activities generally are financed through taxes, intergovernmental revenues, and other non-exchange transactions. Business-type activities are financed in whole or in part by fees charged to external parties.

The statement of net assets presents the financial condition of the governmental and business-type activities of the District at fiscal year end. The statement of activities presents a comparison between direct expenses and program revenues for the business-type activity of the District and for each function of the District's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Program revenues include (a) fees and charges paid by the recipients of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirement of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues. The comparison of direct expenses with program revenues identifies the extent to which each governmental function or business segment is self-financing or draws from the general revenues of the District.

Fund Financial Statements: During the fiscal year, the District segregates transactions related to certain District functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. The fund financial statements provide information about the District's funds, including its fiduciary funds. Separate statements are presented for each fund category-governmental, proprietary, and fiduciary. The New Jersey Department of Education (NJDOE) has elected to require New Jersey districts to treat each governmental fund as a major fund in accordance with the option noted in GASB No. 34, paragraph 76. The NJDOE as the oversight entity believes that the presentation of all funds as major is important for the public interest and to promote consistency among District financial reporting models.

Governmental Funds

General Fund The general fund is the general operating fund of the District and is used to account for all expendable financial resources except those required to be accounted for in another fund. Included are certain expenditures for vehicles and movable instructional or non instructional equipment which are classified in the capital outlay sub-fund.

As required by the New Jersey State Department of Education, the District includes budgeted capital outlay in this fund. U.S. Generally Accepted Accounting Principles as they pertain to governmental entities state that general fund resources may be used to directly finance capital outlays for long-lived improvements as long as the resources in such cases are derived exclusively from unrestricted revenues. Resources for budgeted capital outlay purposes are normally derived from State of New Jersey Aid, district taxes, and appropriated fund balance. Expenditures are those that result in the acquisition of or additions to capital assets for land, existing buildings, improvements of grounds, construction of buildings, additions to or remodeling of buildings and the purchase of built-in equipment. These resources can be transferred from and to the current expense by Board resolution; in certain instances approval by the County Superintendent of Schools may also be required.

Special Revenue Fund The special revenue fund is used to account for the proceeds of specific revenue sources from State and Federal Government (other than those for major capital projects, debt service or proprietary funds) and local appropriations that are restricted or committed to expenditures for specified purposes.

Capital Projects Funds The capital projects fund is used to account for and report all financial resources that are restricted, committed or assigned to expenditures for capital outlays including the acquisition or construction of major capital facilities or other capital assets.

Debt Service Fund - The debt service fund is used to account for and report financial resources that are restricted, committed or assigned to expenditures for principal and interest.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Proprietary Funds

Enterprise Fund The enterprise fund accounts for all revenues and expenses pertaining to the District's Food Service program operations. These funds are utilized to account for operations that are financed and operated in a manner similar to private business enterprises. The stated intent is that the cost (*i.e.* expenses including depreciation and indirect costs) of providing goods or services to the students on a continuing basis are financed or recovered primarily through user charges.

Fiduciary Funds

Agency Funds The agency funds are used to account for assets held by the District on behalf of outside parties, including other governments, or on behalf of other funds within the District. The agency funds included are as follows:

Payroll and Student Activities Funds These are agency funds used to account for the assets that the District holds on behalf of others as their agent. Agency funds are custodial in nature and do not involve measurement of results of operations.

Private Purpose Trust Funds These trust funds are used to account for assets donated by individuals that will provide for the payment of awards and other purposes.

Unemployment Insurance Trust Funds An expendable trust fund used to account for unemployment compensation claims as they arise.

Basis of Accounting-Measurement Focus

Basis of accounting determines when transactions are recorded in the financial records and reported in the financial statements.

District-Wide, Proprietary, and Fiduciary Fund Financial Statements

The District-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Differences in the accrual and modified accrual basis of accounting arise in the recognition of revenue, the recording of deferred revenue, and in the presentation for expenses versus expenditures. Ad Valorem (Property) Taxes are susceptible to accrual as under New Jersey State Statute a municipality is required to remit to its school district the entire balance of taxes in the amount voted upon or certified, prior to the end of the school year. The District records the entire approved tax levy as revenue (accrued) at the start of the fiscal year, since the revenue is both measurable and available.

Somerset Hills School District
Notes to the Financial Statements
For the Fiscal Year Ending June 30, 2011

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Basis of Accounting-Measurement Focus (Continued)

The District is entitled to receive monies under the established payment schedule and the unpaid amount is considered to be an "accounts receivable". Revenue from grants, entitlements, and donations are recognized in the fiscal year in which all eligibility requirements have been satisfied.

Governmental Fund Financial Statements: Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. "Measurable" means the amount of the transactions can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on long-term debt, claims and judgments, and compensated absences, which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds from the issuance of long-term debt and acquisitions under capital leases are reported as other financing sources.

All governmental and business type activities and enterprise funds of the District follow FASB Statements and Interpretations issued on or before November 30, 1989, Account Research Bulletins, unless those pronouncements conflict with GASB pronouncements.

Budgets/Budgetary Control

Annual appropriated budgets are prepared in the spring of each year for the general, special revenue, and debt service funds. The budgets are submitted to the county office and are voted upon at the annual school election on the third Tuesday in April. Budgets are prepared using the modified accrual basis of accounting. The legal level of budgetary control is established at line item accounts within each fund. Line item accounts are defined as the lowest (most specific) level of detail as established pursuant to the minimum chart of accounts referenced in N.J.A.C. 6A:23A-16. Expenditures may not legally exceed budgeted appropriations at the line item level. All budget amendments and transfers must be approved by School Board resolution. Budget amendments during the year ended June 30, 2011 totaled \$71,889, representing the balance of June 30, 2010 general fund encumbrances.

All budget amounts presented in the accompanying supplementary information reflect the original budget and the amended budget (which have been adjusted for legally authorized revisions of the annual budgets during the year).

Somerset Hills School District
Notes to the Financial Statements

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Budgets/Budgetary Control (Continued)

All budget amounts presented in the accompanying supplementary information reflect the original budget and the amended budget (which have been adjusted for legally authorized revisions of the annual budgets during the year).

Appropriations, except remaining project appropriations, encumbrances, and unexpended grant appropriations, lapse at the end of each fiscal year. The capital projects fund presents the remaining project appropriations compared to current year expenditures. Formal budgetary integration into the accounting system is employed as a management control device during the fiscal year. For governmental funds, there are no substantial differences between the budgetary basis of accounting and generally accepted accounting principles (GAAP) with the exception of the legally mandated (NJSA 18A:22-44.2) revenue recognition of deferred State Aid payments for budgetary purposes only and the accounting treatment of encumbrances in the special revenue fund as described below. Encumbrance accounting is also employed as an extension of formal budgetary integration in the governmental fund types. Unencumbered appropriations lapse at fiscal year end.

The accounting records of the special revenue fund are maintained on the grant accounting budgetary basis. The grant accounting budgetary basis differs from GAAP in that the grant accounting budgetary basis recognized encumbrances as expenditures and also recognizes the related revenues, whereas the GAAP basis does not. Sufficient supplemental records are maintained to allow for the presentation of GAAP basis financial records.

Encumbrance Accounting

Under encumbrance accounting purchase orders, contracts and other commitments for the expenditures of resources are recorded to reserve a portion of the applicable appropriation. Open encumbrances in governmental funds other than the special revenue fund are reported as reservations of fund balances at fiscal year end as they do not constitute expenditures or liabilities but rather commitments related to unperformed contracts for goods and services.

Open encumbrances in the special revenue and capital project funds for which the District has received advances are reflected in the balance sheet as deferred revenues at fiscal year end. The encumbered appropriation authority carries over into the next fiscal year. An entry will be made at the beginning of the next fiscal year to increase the appropriation reflected in the certified budget by the outstanding encumbrance amount as of the current fiscal year end.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Interfunds

Interfund receivables and payables arise from transactions between particular funds and are considered short term in duration. The interfund transactions are recorded by all funds affected in the period in which the transactions are executed and are part of the district's available spendable resources.

Inventories and Prepaid Expenses

Inventories of materials and supplies held for consumption in the governmental funds are recorded as expenditures at the time of purchase and year end balances are not reported in the financial statements.

Inventories of food and/or supplies in the food service fund are recorded at cost on a first-in, first-out basis or, in the case of Food Distribution Commodities, at stated value which approximates market.

Prepaid expenses which benefit future periods, other than those recorded in the enterprise fund, are recorded as expenditures in the year of purchase.

Capital Assets

The District has an established formal system of accounting for its capital assets. Capital Assets used for governmental purposes, which include land, buildings and improvements and furniture and equipment, are only reported in the district-wide financial statements. The District generally defines capital assets as assets with an initial cost of \$2,000.00 or more and a estimated useful life in excess of one year. Purchased or constructed capital assets are reported at cost. Donated capital assets are valued at their estimated fair market value on the date received. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized.

Capital assets are depreciated in the district-wide statements using the straight-line method over the following estimated useful lives:

<u>Asset Class</u>	<u>Estimated Useful Lives</u>
School Buildings	50
Building Improvements	20
Electrical/Plumbing	30
Vehicles	8
Office & computer equipment	5-10
Instructional equipment	10
Grounds equipment	15

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Compensated Absences

The District accounts for compensated absences (e.g., unused vacation, sick leave) as directed by Governmental Accounting Standards Board Statement No. 16 (GASB 16), "Accounting for Compensated Absences." A liability for compensated absences attributable to services already rendered and not contingent on a specific event that is outside the control of the employer and employee is accrued as employees earn the rights to the benefits.

District employees are granted varying amounts of vacation and sick leave in accordance with the District's personnel policy and/or collective bargaining unit contracts. Upon termination, employees are paid for accrued vacation. Sick leave benefits provide for ordinary sick pay and begin vesting with the employee after four years of service.

The liability for compensated absences was accrued using the termination payment method, whereby the liability is calculated based on the amount of sick leave and vacation days that are expected to become eligible for payment upon termination. The District estimates its accrued compensated absences liability based on the accumulated sick and vacation days at the balance sheet date by those employees who are currently eligible to receive termination payments.

For the district-wide statements, the current portion is the amount estimated to be used in the following year. For the governmental funds in the fund financial statements, a liability is reported only for to the extent of the amount actually due at year end as a result of employee resignations/retirements. Compensated absences are a reconciling item between the fund level and district-wide presentations.

Deferred Revenue

Deferred revenue in the special revenue and capital projects funds represents funds which have been received but not yet earned. A corresponding accounts receivable has also been established for any open encumbrances at year end which is an allowable practice under generally accepted accounting principles.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities, and long-term obligations are reported on the district-wide financial statements. In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources are reported as obligations of the funds. However, contractually required pension contributions and compensated absences that are paid from governmental funds are reported as liabilities on the fund financial statements only to the extent that they are due for payment during the current year. Long term debt is recognized as a liability on the fund financial statements when due.

Net Assets

Net assets represent the difference between assets and liabilities. Net assets invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation, reduced by the outstanding balance of any borrowing used for the acquisition, construction, or improvement of those assets. Net assets are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the District or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments. The District's policy is to first apply restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net assets are available.

Fund Balance Reserves

In fiscal year 2011, the District implemented GASB Statement 54, "Fund Balance Reporting and Governmental Fund Type Definitions". This statement modifies fund balance reporting and clarifies fund type definitions. This new Statement aims to enhance the usefulness of fund balance information by providing clearer fund balance clarifications that can be applied more consistently. The restricted fund balance classification includes amounts that are subject to externally enforceable legal restriction such as by constitutional provision, enabling legislation or other government imposed restrictions. The committed fund balance classification includes amounts constrained for a specific purpose by a government using its highest decision-making authority. The assigned fund balance classification includes amounts for all funds, other than the general fund with any remaining positive balances not already classified as restricted or committed. For the general fund, amounts constrained with the intent to be used for a specific purpose by the governing board or an official delegated authority by the board. The unassigned fund balance classification includes for the general fund, amounts not classified as restricted, committed or assigned. The general fund is the only fund that will report a positive unassigned fund balance. For all other governmental funds the amount of a residual deficit would be classified as unassigned. Fund balance restrictions have been established for excess surplus, excess surplus-designated for subsequent year's expenditures, capital reserve and emergency reserve.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Revenues Exchange and Non-Exchange Transactions

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On the modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the District, "available" means within sixty days of the fiscal year end.

Non-exchange transactions, in which the District receives value without directly giving equal value in return, include property taxes, income taxes, grants, entitlements, and donations. On the accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from income taxes is recognized in the period in which the income is earned. Revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted; matching requirements, in which the District must provide local resources to be used for a specific purpose; and expenditure requirements, in which the resources are provided to the District on a reimbursement basis. On the modified accrual basis, revenue from non-exchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered both measurable and available at fiscal year end: property taxes available as an advance, interest, and tuition.

Operating Revenues and Expenses

Operating revenues are those revenues that are generated directly from the primary activity of the enterprise fund. For the District, these revenues are sales in the Enterprise Funds. Operating expenses are necessary costs incurred to provide the service that is the primary activity of the enterprise fund.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Allocation of Indirect Expenses

The District reports all direct expenses by function in the Statement of Activities. Direct expenses are those that are clearly identifiable with a function. Indirect expenses are allocated to functions but are reported separately in the Statement of Activities. Employee benefits, including the employer's share of social security, workers compensation, and medical and dental benefits, were allocated based on salaries of the program. Depreciation expense, where practicable, is specifically identified by function and is included in the indirect expense column of the Statement of Activities. Depreciation expense that could not be attributed to a specific function is considered an indirect expense and is reported separately on the Statement of Activities.

Extraordinary and Special Items

Extraordinary items are transactions or events that are unusual in nature and infrequent of occurrence. Special items are transactions or events that are within control of management and are either unusual in nature or infrequent in occurrence. Neither of these types of transactions occurred during the fiscal year.

Management Estimates

The preparation of financial statements in conformity with GAAP requires management to make assumptions that affect the amounts reported as revenue and expenditures/expenses during the reporting period. These estimates may differ from actual results.

NOTE 2: CASH AND CASH EQUIVALENTS AND INVESTMENTS

The District considers petty cash, change funds, cash in banks, deposits in the New Jersey Cash Management Fund and short term investments with original maturities of three months or less as cash and cash equivalents. Investments are stated at fair value.

NOTE 2: CASH, CASH EQUIVALENTS AND INVESTMENTS (CONTINUED)

Deposits

New Jersey statutes permit the deposit of public funds in public depositories which are located in New Jersey and which meet the requirements of the Governmental Unit Deposit Protection Act (GUDPA). GUDPA requires a bank that accepts public funds to be a public depository. A public depository is defined as a state bank, a national bank, or a savings bank, which is located in the State of New Jersey, the deposits of which are insured by the Federal Deposit Insurance Corporation. The statutes also require public depositories to maintain collateral for deposits of public funds that exceed certain insurance limits. Each depository participating in the GUDPA system must pledge collateral equal to 5% of the average amount of its public deposits and 100% of the average amount of its public funds in excess of 75% of its capital funds. No collateral is required for amounts covered by FDIC insurance. The collateral which may be pledged to support these deposits includes obligations of the State and federal governments, insured securities and other collateral approved by the Department. When the capital position of the depository deteriorates or the depository takes an unusually large amount of public deposits, the Department of Banking and Insurance requires additional collateral to be pledged. Under (GUDPA), if a public depository fails, the collateral it has pledged, plus the collateral of all other public depositories, is available to pay the full amount of the deposits to the governmental unit.

Custodial Credit Risk- Deposits – Custodial credit risk is the risk that in the event of a bank failure, the deposits may not be returned. The District does not have a specific deposit policy for custodial credit risk other than those policies that adhere to the requirements of statute. As of June 30, 2011, based upon the coverage provided by FDIC and NJGUDPA, no amount of the bank balance was exposed to custodial credit risk. Of the cash on balance in the bank of \$5,587,700.32, \$250,000.00 was covered by Federal Depository Insurance and \$5,337,700.32 was covered under the provisions of NJGUDPA.

As of June 30, 2011, cash and cash equivalents of the District consisted of the following:

Fund Type:	Bank	Reconciling Items:		Reconciled
	<u>Balance</u>	<u>Additions</u>	<u>Deletions</u>	<u>Balance</u>

NOTE 5: PENSION PLANS

Description of Plans All required employees of the District are covered by either the Public Employees' Retirement System or the Teachers' Pension and Annuity Fund which have been established by state statute and are administered by the New Jersey Division of Pension and Benefits (Division). According to the State of New Jersey Administrative Code, all obligations of both Systems will be assumed by the State of New Jersey should the Systems terminate. The Division issues a publicly available financial report that includes the financial statements and required supplementary information for the Public Employees Retirement System and the Teachers' Pension and Annuity Fund. These reports may be obtained by writing to the Division of Pensions and Benefits, PO Box 295, Trenton, New Jersey, 08625.

Teachers' Pension and Annuity Fund (TPAF) The Teachers' Pension and Annuity Fund was established as of January 1, 1955, under the provisions of N.J.S.A. 18A:66 to provide retirement benefits, death, disability and medical benefits to certain qualified members. The Teachers' Pension and Annuity Fund is considered a cost-sharing multiple employer plan with a special funding situation, as under current statute, all employer contributions are made by the State of New Jersey on behalf of the District and the system's other related non-contributing employers. Membership is mandatory for substantially all teachers or members of the professional staff certified by the State Board of Examiners, and employees of the Department of Education who have titles that are unclassified, professional and certified.

Public Employees' Retirement System (PERS) The Public Employees' Retirement System (PERS) was established as of January 1, 1955 under the provision of N.J.S.A. 43:15A to provide retirement, death, disability and medical benefits to certain qualified members. The Public Employees' Retirement System is a cost-sharing multiple employer plan. Membership is mandatory for substantially all full-time employees of the State of New Jersey or any county, municipality, school district, or public agency, provided the employee is not required to be a member of another state administered retirement system or other state or local jurisdiction.

Vesting and Benefit Provisions The vesting and benefit provisions of PERS are set by N.J.S.A. 43:15A and 43.3B, and N.J.S.A. 18A:6C for TPAF. All benefits vest after eight to ten years of service, except for medical benefits that vest after 25 years of service. Retirement benefits for age and service are available at age 60 and are generally determined to be 1/60 of the final average salary for each year of service credit, as defined. Final average salary equals the average salary for the final three years of service prior to retirement (or highest three years' compensation if other than the final three years).

Notes to the Financial Statements
For the Fiscal Year Ending June 30, 2011

NOTE 5: PENSION PLANS (CONTINUED)

Vesting and Benefit Provisions (Continued) Members may seek early retirement after achieving 25 years of service credit or they may elect deferred retirement after achieving eight to ten years of service in which case benefits would begin the first day of the month after the member attains normal retirement age. The TPAF and PERS provides for specified medical benefits for members who retire after achieving 25 years of qualified service, as defined, or under the disability provisions of the System.

Members are always fully vested for their own contributions and, after three years of service credit, become vested for 2% of related interest earned on the contributions. In the case of death before retirement, members' beneficiaries are entitled to full interest credited to the members' accounts.

Significant Legislation

Chapter 89- P.L. 2008- Members of either system who became members before July 1, 2007 may retire at age 55 years with 25 years of service or at age 60 with any number of years of service without a reduction in the amount of retirement allowance the members' receive. There is a reduction in such an allowance if the member is under 55 with 25 years of service. There is also a reduction in an allowance for members of either system who became members on or after July 1, 2007 and who retire between age 55 and 60 years with 25 or more years of service.

Contribution Requirements The contribution policy is set by N.J.S.A. 43:15A and N.J.S.A. 18:66, and requires contributions by active members and contributing employers. Plan member and employer contributions may be amended by State of New Jersey legislation. TPAF and PERS currently provide for employee contributions of 5.5% of employees' annual compensation, as defined. Employers are required to contribute at an actuarially determined rate in both TPAF and PERS. The actuarially determined contribution includes funding for cost-of-living adjustments, noncontributory death benefits, and post-retirement medical premiums. Under current statute the District is a non-contributing employer of TPAF (i.e. the State of new Jersey makes the employer contribution on behalf of public school districts.

During the fiscal years ended June 30, 2011, 2010 and 2009, the State of New Jersey did not contribute to the TPAF pension system on behalf of the District.

Also, in accordance with N.J.S.A. 18A:66-66 the State of New Jersey reimbursed the District \$1,149,170.19 during the year ended June 30, 2011 for the employer's share of social security contributions for TPAF members, as calculated on their base salaries. This amount has been included in the basic financial statements, and the combining and individual fund statements and schedules as a revenue and expenditure in accordance with GASB 27.

Pension Deferral

Chapter 19 of Public Law 2009 provided regular and vocational school districts the option of deferring fifty (50) percent of the District's 2008-09 regular PERS pension liability. Districts that elected to defer the pension liability must begin repaying the deferred amount over fifteen years beginning in April, 2012.

Concurrent with the approval of the PERS pension deferral, Chapter 22 of Public Law 2009 required the Department of Education to reduce State aid for regular and county vocational school districts in the amount of the allowable PERS pension deferral, regardless of whether the school district elected to defer the pension payment. The Somerset Hills School District elected to defer the pension payment in the amount of \$107,879.00. This amount is included in the District's long-term liabilities as of June 30, 2011.

NOTE 6: OTHER POST-RETIREMENT BENEFITS

P.L. 1987, c. 384 and P.L. 1990, c.6 required Teachers' Pensions and Annuity Fund (TPAF) and the Public Employees' Retirement System (PERS), respectively, to fund post-retirement medical benefits for those state employees who retire after accumulating 25 years of credited service or on a disability retirement. P.L. 2007, c.103 amended the law to eliminate the funding of post-retirement medical benefits through the TPAF and PERS. It created separate funds outside of the pension plans for the funding and payment of post-retirement medical benefits for retired state employees and retired educational employees. As of June 30, 2010 there were 87,288 retirees eligible for post-retirement medical benefits. The cost of these benefits is funded through contributions by the state in accordance with P.L. 1994, c.62. Funding of post-retirement medical premiums changed from a pre-funding basis to a pay-as-you-go basis beginning in Fiscal Year 1994.

The state is also responsible for the cost attributable to P.L. 1992 c. 126, which provides free health benefits to members of PERS and the Alternate Benefit Program who retired from a board of education or county college with 25 years of service. The state paid \$126.3 million toward Chapter 126 benefits for 14,050 eligible retired members in Fiscal Year 2010.

The State will set the contribution rate based on the annual required contribution of the employers (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) of the plan over a period not to exceed thirty years. The State's contributions to the State Health Benefits Program Fund for TPAF retirees' post-retirement benefits on behalf of the School District for the years ended June 30, 2011, 2010 and 2009 were, \$1,045,797, \$984,490 and \$947,523 respectively, which equaled the required contributions for each year. The State's contributions to the State Health Benefits Program Fund for PERS retirees' post-retirement benefits on behalf of the School District was not determined or made available by the State of New Jersey.

NOTE 7: LITIGATION

The District's counsel advises that there is no litigation, pending litigation, claims, contingent liabilities, unasserted claims or assessments or statutory violations which involve the School District and which might materially affect the District's financial position.

NOTE 8: CONTINGENCIES

The District receives financial assistance from the State of New Jersey and the U.S. Government in the form of grants. Entitlement to the funds is generally conditional upon compliance with terms and conditions of the grant agreements and applicable regulations, including the expenditure of the funds for eligible purposes. The State and Federal grants received and expended in the 2010-2011 fiscal year were subject to the U.S. OMB Circular A-133 and New Jersey OMB Circular 04-04 which mandates that grant revenues and expenditures be audited in conjunction with the District's annual audit if expenditures for federal or state programs exceed \$500,000. Findings and questioned costs, if any, relative to federal and state financial assistance programs are discussed in the Single Audit Section, Schedule of Findings and Questioned Costs. In addition, all grants and cost reimbursements are subject to financial and compliance audits by the grantors. The District's management does not believe any such audit would result in material amounts of disallowed costs.

NOTE 9: RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters.

Property and Liability Insurance The District maintains insurance coverage covering each of those risks of loss. The administration believes such coverage is sufficient to preclude any significant uninsured losses to the District. Claims have not exceeded the insurance coverage in any of the past three fiscal years.

New Jersey Unemployment Compensation Insurance The District has elected to fund its New Jersey Unemployment Compensation Insurance under the "Benefit Reimbursement Method". Under this plan, the District is required to reimburse the New Jersey Unemployment Trust Fund for benefits paid to its former employees and charged to its account with the State. The District is billed quarterly for amounts due to the State. The following is a summary of District contributions, employee contributions, reimbursements to the State for benefits paid and the ending balance of the District's fiduciary trust fund for the current and previous two years:

Year Ended <u>June 30,</u>	Interest <u>Earnings</u>	Employee <u>Contributions</u>	Amount <u>Reimbursed</u>	Ending <u>Balance</u>

NOTE 10: COMPENSATED ABSENCES

The District accounts for compensated absences (e.g. unused vacation and sick leave) as directed by Governmental Accounting Standards Board Statement No. 16 (GASB 16), "Accounting for Compensated Absences". A liability for compensated absences attributable to services already rendered and not contingent on a specific event that is outside the control of the employer and employee is accrued as employees earn the rights to the benefits.

District employees are granted varying amounts of vacation and sick leave in accordance with the District's personnel policy. Upon termination, employees are paid for accrued vacation. The District's policy permits employees to accumulate unused sick leave and carry forward the amount to subsequent years. Upon retirement, employees shall be paid by the District for the unused sick leave in accordance with the District's agreements with the various employee unions.

The liability for vested compensated absences of the governmental fund types are recorded in the district - wide statement of net assets. As of June 30, 2011, a liability existed for compensated absences for governmental fund-types in the district- wide Statement of Net Assets of \$1,605,294.96.

The liability for vested compensated absences of the proprietary fund types is recorded within those funds as the benefits accrue to employees. As of June 30, 2011 no liability existed for compensated absences in the proprietary funds.

For additional descriptive information see Note 1, Summary of Significant Accounting Policies.

NOTE 11: FUND BALANCE APPROPRIATED

General Fund Of the \$3,817,616.47 in General Fund Balance at June 30, 2011, \$63,402.55 has been reserved for encumbrances; \$688,771.28 has been restricted in the Capital Reserve account; \$135,000.00 has been restricted for maintenance and \$1,504,576.20 is restricted for excess surplus in accordance with N.J.S.A. 18A:7F-7. \$1,299,862.33 of the total restricted for excess surplus has been appropriated and included as anticipated revenue for the year ended June 30, 2011; and \$1,401,088.77 is unassigned.

NOTE 14: CAPITAL RESERVE ACCOUNT

A capital reserve account was established by the District for the accumulation of funds for use as capital outlay expenditures in subsequent fiscal years. The capital reserve account is maintained in the general fund and its activity is included in the general fund annual budget.

Funds placed in the capital reserve account are restricted to capital projects in the district's approved Long Range Facilities Plan (LRFP). Upon submission of the LRFP to the Department of Education, a district may increase the balance in the capital reserve by appropriating funds in the annual general fund budget certified for taxes or by transfer by Board resolution at year end (June 1 to June 30) of any unanticipated revenue or unexpended line item appropriations, or both. A district may also appropriate additional amounts when the express approval of the voters has been obtained by either a separate proposal at budget time or by a special question at one of the four special election dates authorized by N.J.S.A. 19:60-2. Pursuant to N.J.A.C. 6A:23A-14.1(g), the balance in the account cannot at any time exceed the local support costs of uncompleted capital projects in its approved LRFP.

The activity of the capital reserve during the year ended June 30, 2011, is as follows:

Balance, July 1, 2010	\$ 159,226.05

NJSA 18A:7F-5d limits the amount that the district can submit for a general fund tax levy. The levy when added to other components of the district's net budget may not exceed the prebudget year net budget by more than the spending growth limitation calculated as follows: the prebudget year net budget increased by the cost of living or 2.5 percent, whichever is greater, plus any spending growth adjustments.

(a) The district's basic tax rate is calculated from the A4F form which is submitted with the budget and the Net valuation taxable

(b) Rates for debt service are based on each year's requirements.

Note: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the District. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of the district. This process recognizes that, when considering the District's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt, of each overlapping payment.

(a) For debt repaid with property taxes, the percentage of overlapping debt applicable is estimated using taxable assessed property values. Applicable percentages were estimated by determining the portion of another governmental unit's taxable value that is within the district's boundaries and dividing it by each unit's total taxable value.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL
OVER FINANCIAL REPORTING AND ON COMPLIANCE AND
OTHER MATTERS BASED ON AN AUDIT OF BASIC FINANCIAL
STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS

Honorable President and Members
of the Board of Education
Somerset Hills School District
County of Somerset
Bernardsville, New Jersey 07924

We have audited the basic financial statements of the Somerset Hills School District, County of Somerset, New Jersey as of and for the fiscal year ended June 30, 2011, and have issued our report thereon dated October 13, 2011. We conducted our audit in accordance with U.S. generally accepted auditing standards, audit requirements as prescribed by the Division of Finance, Department of Education, State of New Jersey and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the Somerset Hills School District, County of Somerset, New Jersey internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the basic financial statements but not for the purpose of expressing an opinion on the effectiveness of the Somerset Hills School District, County of Somerset's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Somerset Hills School District, County of Somerset's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and corrected on a timely basis.

SUPLEE, CLOONEY & COMPANY

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Somerset Hills School District's basic financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of basic financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

This report is intended for the information of the Somerset Hills School District, County of Somerset, New Jersey, the New Jersey State Department of Education and federal and state awarding agencies and is not intended to be and should not be used by anyone other than these specified parties.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE
WITH REQUIREMENTS APPLICABLE TO EACH MAJOR FEDERAL AND STATE
FINANCIAL ASSISTANCE PROGRAMS AND ON
INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE
WITH OMB CIRCULAR A -133 AND NEW JERSEY OMB CIRCULAR 04-04

Honorable President and Members
of the Board of Education
Somerset Hills School District
County of Somerset
Bernardsville, New Jersey 07924

Compliance

We have audited the compliance of the Somerset Hills School District with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement and the New Jersey State Grant Compliance Supplement that are applicable to each of its major federal and state programs for the year ended June 30, 2011. Somerset Hills School District's major federal and state programs are identified in the summary of auditor's results section of the accompanying Schedule of Findings and Questioned Costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major state programs is the responsibility of Somerset Hills School District's management. Our responsibility is to express an opinion on Somerset Hills School District's compliance based on our audit.

We conducted our audit of compliance in accordance with U.S. generally accepted auditing standards; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, audit requirements prescribed by the Division of Finance, Department of Education, State of New Jersey and the provisions of U.S. Office of Management and Budget (OMB) Circular A-133 "Audits of States, Local Governments and Non-Profit Organizations" and State of New Jersey OMB Circular 04-04, "Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid." Those standards and provisions require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal and state program occurred. An audit includes examining, on a test basis, evidence about the Somerset Hills School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the Somerset Hills School District's compliance with those requirements.

SUPLEE, CLOONEY & COMPANY

In our opinion, the Somerset Hills School District complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal and state programs for the year ended June 30, 2011.

Internal Control Over Compliance

The management of the Somerset Hills School District is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to federal and state programs. In planning and performing our audit, we considered the Somerset Hills School District's internal control over compliance with requirements that could have a direct and material effect on a major federal and state program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133 and NJ OMB Circular 04-04, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Somerset Hills School District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct noncompliance with a type of compliance requirement of a federal or state program on a timely basis. A material weakness in internal control over compliance, is a deficiency, or combination of deficiencies in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal or state program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of the internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

This report is intended for the information of the Somerset Hills School District, County of Somerset, New Jersey, the New Jersey State Department of Education and federal and state awarding agencies and is not intended to be and should not be used by anyone other than these specified parties.

Year Ended June 30, 2011

NOTE 1: GENERAL

The accompanying schedules of expenditures of federal awards and state financial assistance include federal and state activity of the Board of Education, Somerset Hills School District. The Somerset Hills School District reporting entity is defined in Note 1 to the District's basic financial statements. All federal and state awards received directly from the federal and state agencies, as well as federal awards and state financial assistance passed through other government agencies is included on the schedule of expenditures of federal awards and state financial assistance.

NOTE 2: BASIS OF ACCOUNTING

The accompanying schedules of expenditures of awards and federal awards and state financial assistance are presented on the budgetary basis of accounting with the exceptions of programs recorded in the food service fund, which are presented using the accrual basis of accounting. These bases of accounting are described in Note 1 of the District's basic financial statements. The information in this schedule is presented in accordance with the requirements of OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the basic financial statements.

NOTE 3: RELATIONSHIP TO BASIC FINANCIAL STATEMENTS

The basic financial statements present the general fund and special revenue fund on a GAAP basis. Budgetary comparison schedules (RSI) are presented for the general fund and special revenue fund to demonstrate finance-regulated legal compliance in which certain revenue is permitted by law or grant agreement to be recognized in the audit year, whereas for GAAP reporting, revenue is not recognized until the subsequent year or when expenditures have been made.

The General fund is presented in the accompanying schedules on the modified accrual basis with the exception of the revenue recognition of the deferred state aid payments in the current budget year, which is mandated pursuant to N.J.S.A. 18A:22-44.2. For GAAP purposes, those payments are not recognized until the subsequent budget year due to the state deferral and recording of the state aid payment in the subsequent budget year. The special revenue fund is presented in the accompanying schedules on the grant accounting budgetary basis which recognizes encumbrances as expenditures and also recognizes the related revenue, whereas GAAP basis does not. The special revenue fund also recognizes the deferred state aid payments in the current budget year, consistent with N.J.S.A. 18A:22-44.2.

Finding #2010-1

We were unable to test the District's reporting for Section 1512 of the American Recovery and Reinvestment Act (ARRA) IDEA Part B grant funding because the District did not maintain hard copies of these reports and the reports are no longer available in the Statement Department of Education's (the Pass-through entity) Homeroom website.

Recommendation

That a policy on records retention relating to grant program reporting be established to ensure that all reports required to be filed electronically are maintained for audit.

Current Status: The recommendation has been implemented.
