

Table 2 – Response Action Triggers by Situation

This table provides an overview of the triggers for the three response actions: Watch, Alert and Response. Any variation in shading indicates a situation that triggers a change in response. The situations across the top of the table reflect the population (animal and human) affected and geographic distribution. The abbreviations used for the 17 NJDHSS Situations are explained on the preceding page.

Operations Sections	NJ Situations																
	WHO Phases (1-6)																
	AOS (1/2A)	ANA (1/2B)	ANJ (1/2C)	FOS (3A)	FNA (3B)	FNJ (3C)	HOS (3D)	HNA (3E)	HNJ (3F)	COS (4A)	CNA (4B)	CNJ (4C)	WOS (5A)	WNA (5B)	WNJ (5C)	I+S (6)	BW
