

SAVE LIVES

ALL IN A DAY'S WORK

ONE PINT OF YOUR BLOOD MAY SAVE UP TO 3 LIVES

New Jersey is facing a chronic blood shortage. In 2007, the State collected 45,269 units less than it used. Blood is in constant demand every day of the year. In fact, nine out of 10 of us will need blood some time in our lives. Without adequate blood supplies the State will be unable to meet our needs.

To do our part, our company has joined with the New Jersey Workplace Blood Donor Coalition's Save 3 Lives Campaign to increase New Jersey's blood supply.

DATE: _____ TIME: _____

PLACE: _____ CONTACT: _____

OUR GOAL: _____ PINTS = _____ LIVES SAVED

Give blood. It's simple and safe.

Together, we can save lives...all in a day's work!
