

**Technology Device Technician
Integrated Technology Services**

The New Jersey Turnpike Authority is currently accepting resumes for the above-position.

JOB SUMMARY:

A Technology Device Technician, when directed by a manager in the Integrated Technology Services (“ITS”) Department, will install, maintain, and repair, along with other members of the ITS Department as needed by management a wide variety of technology devices and cabling related to the computing, electrical, sensory, communication, signage, imagery, mechanical, tolling, and audio-visual, etc., infrastructure.

ESSENTIAL JOB FUNCTIONS:

1. Will install, maintain, and repair a wide variety of technology devices and cabling. Cabling means both pulling copper cabling and fiber for a wide variety of technology devices terminating copper and fiber at end unit devices such as cameras, variable message signs, and lane controllers.
2. Will perform all work in accordance with current industry standards, as well as NJTA policies and procedures.
3. Must be able to maintain and utilize, in a safe and efficient manner, common and specialized hand and power tools associated with the position.
4. Perform physical activities involving the use of upper and lower body extremities; will be required to work in confined environments; perform their responsibilities in all types of weather conditions; maintain, operate and move equipment and power sources up to 75 lbs.; work alongside traffic in a lane or shoulder closure; work from enclosures, ladders, rooftops, communications structures, and elevation devices such as bucket trucks and scissor lifts, that up to 100 ft. above the terrain and/or roadway.
5. Maintain service records, project reports, and work orders as directed.
6. Ability to work independently with minimum supervision.
7. To perform other related duties as delegated.
8. Employees shall obtain a Class A CDL within six (6) months of occupying the job title.

ESSENTIAL EDUCATION, SKILLS, & KNOWLEDGE:

Either high school diploma or GED and at least two (2) years of experience in the installation, maintenance, repair and cabling of a wide variety of technology devices required. Also required is either Technical/Vocational school graduate or Military Occupational Specialty in electronics. Four (4) or more years of experience in the installation, maintenance, repair and cabling of wide variety of technology devices will be accepted in lieu of Technical/Vocational school or Military Occupational Specialty in electronics. Must possess a valid New Jersey driver’s license and Class A CDL.

This job description is intended to describe the general nature of work being performed by staff assigned to this position. It is not intended to be an exhaustive list of all responsibilities, duties, and requirements of personnel so classified

Excellent salary and benefits package. Send resume, with salary requirements to address below, or fax to (732) 750-5366.
